

PRESENTATIONS

I. Presentation of teacher :

- Mathematics / Computer Science Teacher
- I am not an English teacher, and there are certainly students who are much better than me. I will do my best.
- My handwriting is bad, so you will need to learn to decipher it, especially short words.

II. Presentation of each student :

- Nametag for everyone with their first name.
- Individual presentation including:
 - First name
 - Last name
 - Do you have access to a computer and the internet at home?
 - If you wish, a passion / extra activity
 - If you wish, future intended career/profession

III. A few rules to live and work well together:

- In general, I remain silent and, above all, when the teacher is speaking.
- I wait for the teacher or another student to finish speaking before taking the floor.
- I make sure not to bring up off-topic subjects. I do not speak to distract the class.
- I must respect whoever comes to the board.
- I ask for permission to stand up.
- I do not pass papers across the classroom.
- I do not throw anything, even if it is towards the bin.

IV. Organisation

- I plan to do group work.
 - Involvement in group work will be evaluated each semester.
 - Group work is not for hanging out with friends. It is for working seriously with other students with whom you may not necessarily have affinities.
 - I will be the one assigning the groups.
- Most of the resources will be accessible on the website: <http://ninoo.fr/LC>
 - This will allow you to catch up on lessons.
 - This will allow you to print a sheet that you may have lost.
